Dear Valued Business Partner:

Teleflex Medical offers you a variety of leading healthcare brands such as CV Evolutions, Deknatel, Gibeck, HudsonRCI, KMedic, Pilling, Rusch, Pleur-evac, Sheridan, Taut, Weck, and others. While those brands will not change, all these trusted names are coming together in order to conduct business with you under the single name of Teleflex Medical.

We will be implementing new systems and processes to improve our ability to serve you. We have been working for more than a year to launch a major technology initiative, a new enterprise resource program (ERP) that reaches across all of Teleflex Medical. You will now be able to conduct business with us as you always have, but as one Teleflex Medical. This will give you the benefits of one purchase order and one invoice for a number of brands, along with the ability to view all of your purchases.

We have designed this implementation to be as seamless as possible for you. We anticipate operating in the latter part of the year. We will communicate with you regarding the exact implementation date. We appreciate your involvement, and we look forward to your support as this project takes shape. If you have any questions, comments, or concerns, you may email us at askteleflex@teleflexmedical.com

Sincerely

Jeffrey D. Brown
Sr. VP International Sales and Marketing
