

This letter is intended only for *EDI* customers affected by Project Sirius. It was revised under the direction of Tim Hopper on 3/13/2007 1:51 PM.

Salutation (customized by Mail Merge):

Teleflex Medical offers you a variety of leading healthcare brands, such as CV Evolutions, Deknatel, Gibeck, HudsonRCI, KMedic, Pilling, Rüsçh, Pleur-evac, Sheridan, Taut, Weck, and others. While those brands will not change, all these trusted names are coming together in order to conduct business with you under the single name of Teleflex Medical.

Effective this summer, we will be implementing new systems and processes to improve our ability to serve you. We have been working for more than a year to launch a major technology initiative, a new enterprise resource program that reaches across all of Teleflex Medical. You will now be able to conduct business with us as you always have, but as one Teleflex Medical. This will give you the benefits of one purchase order and one invoice for the brands you currently buy directly, along with the ability to view all of your direct purchases from Teleflex Medical. Your facility also purchases many of our brands through one of our many distributor partners; these will not be affected by this change. You can be sure that you will continue to purchase these products from your existing channels of distribution.

We have designed this implementation to be as seamless as possible for you. We anticipate operating under these new systems in mid-summer. As the "go-live" date approaches, we will continue to communicate with you and inform you of any changes that may occur to the implementation plan. We appreciate your support as this project takes shape. If you have any questions, comments, or concerns, please feel free to contact us at projectsirius@teleflexmedical.com

Sincerely,

Jens Boy/Tim Hopper or whomever will sign it.
