

February 15, 2007

Dear Trading Partner,

Teleflex Medical is in the process of implementing a new ERP system. This will combine the Weck, Pilling, CV Evolutions, Rusch, and Hudson RCI systems into a single entity supplying all the products from all 5 brands. This change is scheduled to take place on July 1, 2007. This change will affect all EDI communications as the EDI ids for the individual brands will no longer be used. Some trading partners currently have multiple EDI relationships with Teleflex Medical, one for each brand. This will be replaced with a single EDI id and EDI connection for each trading partner.

Our current EDI Ids are:

Brand	EDI Id	Qualifier
Rusch	4046230816	12
Weck	825237126	01
Pilling	847920931	01
CV Evolutions	005020615C	ZZ
Hudson RCI	00MQ65N00	21

Our New EDI Ids will be:

	EDI Id	Qualifier
Test	TELEFLEXMEDT	ZZ
Production	TELEFLEXMED	ZZ

Teleflex Medical's VAN will be Sterling Commerce. We also have the ability to support direct communications via AS2, FTP, and AS3.

To help insure a smooth transition from the old systems to the new system we would like to make sure we have the correct information for all of our trading partners. We would also like to send and receive test transactions to confirm each of the documents from the new system meets the needs of our trading partners. We would like to have all testing completed by the end of May.

Please take a moment to fill in the form on the next page and return it to me. Please contact me if you have any questions or concerns.

Thank You
John Morrissey
